

About SMT

At SMT (Sahajanand Medical Technologies), we are revolutionizing healthcare through innovation and clinical excellence. As a multinational MedTech company with diversified manufacturing facilities and operations across multiple countries, SMT is at the forefront of high-end cardiovascular, endovascular, and structural heart devices.

Guided by our mission, “Pledged to Save Millions,” we specialize in developing clinically proven solutions for coronary interventions, occluders for congenital defects, and structural heart therapies. Our products undergo rigorous clinical trials and are featured in world-class medical journals like The Lancet, New England Journal of Medicine, BMJ Open, and JACC, cementing our position as a trusted leader in evidence-based healthcare.

With a presence in 80+ countries and a diverse global workforce, SMT is driving innovation to meet the needs of healthcare professionals and patients. Our cutting-edge technologies are designed to tackle complex anatomies, high-risk cases, and challenging clinical scenarios, enhancing procedural outcomes and improving patients’ quality of life.

As an emerging leader in the MedTech industry, we are committed to advancing healthcare standards and shaping the future of interventional cardiology.
